Information

Hi, U-san! [Vol. 14]

You need not pay medical expenses for your third child (except for your first and second children) from October onward. That's because we aim to reduce the burden of medical expenses. The payment for the outpatient care is free until a child becomes 15 years old. The payment for hospitalization is free until a child becomes 18 years old. At the end of September, we start to send new cream-colored identifications of recipients to their guardians. You need to show your insurance card and the identification of recipient when you go to a medical institution. If your first and second children live outside of this city because of studying at university and you send money as the cost of living to them, your third child can get this benefit. In such a case, you bring health insurance card for your third child and seal to Health Center or Heda's Health Center, and apply for that.

[Until September, 2016]

	Outpatient care	Inpatient
For	Until 15 years old	Until 18 years old
Paying your own expenses	500 yen each time	500 yen each day

[After October, 2016]

	Outpatient care	Inpatient
For your third child ~	Until 15 years old	Until 18 years old

Paying your own expenses	Free	Free
--------------------------	------	------

*You must live with more than three children.

*We don't have any change about the first and second children.

Inquiries: Health Promotion Division ☎ 055-951-3480

Please Make Use of Nighttime Emergency Medical Center appropriately

Nighttime Emergency Medical Center is a facility where a person who gets sick or injured suddenly at night receives first-aid treatment. However, a lot of people not in urgent need of treatment visit there only because they have no time to see doctors in the daytime or such. If you visit there without any emergent reasons, it can disturb people in serious condition from getting treatment and even make them worse. It can cause rising medical expense as well. Please cooperate in making use of the facility appropriately.
