◆Be careful of heat stroke◆

Heat stroke develops not only during the middle of summer but also during the rainy season with high humidity. Be careful if there is a change of your physical condition and try to prevent it.

-Points for Prevention-

1. Use air conditioning and fans wisely and pay attention to the room temperature.
2. Wear a hat or use a UV umbrella when going outside.
3. Drink water frequently even before you feel thirsty.
4. Take a rest without straining yourself or you feel hot, or tired.
5. Get enough nutrients and sleep to strengthen your body.

◆ Be Careful of Food Poisoning◆

To prevent from getting food poisoning, we need to keep the three principles of “not putting virus, not increasing the number of virus, and get sterilized.” Vomiting and diarrhea caused by food poisoning is a defense reaction from your body. Do not use commercial medicine without thinking carefully. Please get doctor’s diagnosis as soon as possible.

-Points for Prevention-

1. Wash the ingredients, your hands and equipment properly.
2. Don’t leave food in the room temperature for a long time. Keep it in the refrigerator.
3. Store foods with a lid so germs do not go on the food.
4. Cook food thoroughly.
5. Clean and sterilize the cooking utensils regularly.
