

Around Kano River and Mt. Kanuki

These areas are the cradle of the hearts of Numazu citizens.

Five mountains ranging along the Kano river are popular mount-climbing spots in the Numazu City.

14 Ayumi Bridge

This suspension bridge is very unique in its structure, with the cable from the top of pole down to the top of bridge and also with cable along the back side of bridge arch, which was first techniques of this type of structure in the world. This bridge is only pedestrians and bicycles.

15 Lightened up of Kano River

The left side of the river (between Misono Bridge and Minato-oh Bridge) is provided with walking road for pedestrians, which is illuminated at night.

16 Kakita Spring Water

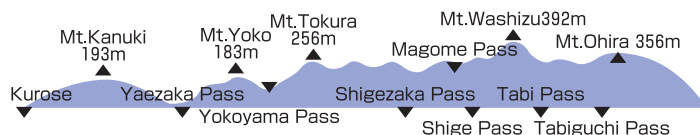

This spring water is very famous pond water, well known all over Japan and is also the water source of the city.

17 Mt. Kanuki & Numazu Alps

The Alps five mountain range are easily accessible from the city. From there, you can command the view of Mt. Fuji, Suruga Bay and Kano River. The best scenery attracts a lot of hikers.

18 Five-storied Pagoda at Mt. Kanuki
